HONORARY DEGREE

The appointment in 1977 of *Dr. Richard Chatham Atkinson* as Director of the National Science Foundation capped an eminent and distinguished career as an experimental psychologist, educator, and administrator. The appointment by President Carter followed his earlier appointment by President Ford as Deputy Director of the Foundation in 1975.

Atkinson was born in Oak Park, Illinois, and attended grade school and the first two years of high school there. Instead of completing high school, he entered the University of Chicago in the fall of 1944, earned the Ph.B. degree in 1948, and then stayed on for an additional year of course work. After a period of study at the University of Louisville, he enrolled at Indiana University where he received the Ph.D. degree in 1955.

While a doctoral student at Indiana, Richard Atkinson began his important work in the development of mathematical psychology. His achievements in research have dealt primarily with the analysis of memory and cognition and in the development of computer based information systems as they apply to both psychological theory and practice.

Atkinson was instrumental in founding the *Journal of Mathematical Psychology* and served as its editor from 1963-70. His many publications include not only specialized articles but also a coauthored textbook in mathematical psychology which was the first of its kind and one of the most widely used textbooks on general psychology.

Atkinson's contributions to science and to education have been nationally recognized beyond the considerable distinction of his appointment as Director of the National Science Foundation. He won a Distinguished Research Award by the Social Science Research committee in 1962 and a Guggenheim Fellowship in 1967. He has received many accolades which can best be illustrated by the three honors conferred on him in 1974. In that year Atkinson was elected to the American Academy of Arts and Sciences, the National Academy of Sciences, and the National Academy of Education.

Writing textbooks represents only one element of Richard Atkinson's contribution to education. He taught in the Psychology Department at UCLA from 1957-61, but his teaching career has been spent largely at Stanford University where he served as Chairman of the Department of Psychology. It was at Stanford that he developed a computer-controlled laboratory for the teaching of reading skills.

Regents of the University of California recently selected Dr. Atkinson to become chancellor of the university's San Diego campus on July 1 of this year.

In 1952, Atkinson married Rita Loyd, also a graduate student in psychology at Indiana University, who completed her Ph.D. degree in 1957. The Atkinsons have collaborated on textbooks. The couple have one daughter, Lynn.

ENDOWED PROFESSORSHIPS

Endowed professorships have been established in honor of these individuals who have played vital roles in the development of the College:

Arthur Graham Glasgow Professorship of Hospital Administration. This professorship was established in 1957 in honor of Doctor Glasgow, who provided so generously in his will for the College and who has shown such a vital interest in hospitals;

Stuart McGuire Professorship of Surgery. This professorship was established in 1959 in honor of Dr. Stuart McGuire, who was president of the University College of Medicine when it was consolidated with the Medical College of Virginia in 1913, and who was successively professor of surgery, dean, president, and chairman of the Board of Visitors of the combined institutions. Doctor McGuire died in 1948. His wife, Mrs. Ruth Robertson McGuire, died February 10, 1963. The bulk of the estate of both Doctor McGuire and his wife was bequeathed to the College at her death to be used for the department of surgery;

William Branch Porter Professorship of Medicine. This professorship was established in 1959 in honor of Doctor Porter, who was chairman of the department of medicine from 1927 to 1956 when illness forced his retirement. He died October 6, 1960, leaving his entire estate in trust for the MCV Foundation for use of the department of medicine;

Harvey B. and Gladys V. Haag Professorship of Pharmacology. Established in 1963, this professorship honors Dr. Harvey Bernhardt Haag and his wife, Mrs. Gladys Vaden Haag. Doctor Haag, who died October 14, 1961, joined the College faculty in 1923 and was promoted to professor and chairman of the department of pharmacology in 1933. He also served as dean of the school of medicine from July 1, 1947 to January 1, 1951. Mrs. Haag died September 20, 1962. At Mrs. Haag's death, the bulk of their joint estate came to the MCV Foundation for the department of pharmacology;

Alfred L. Blake Real Estate Chair. The Alfred L. Blake Chair of Real Estate was established in 1972 by the Virginia Realtors Foundation in honor of Mr. Alfred L. Blake, Sr. Mr. Blake, a Richmond realtor, was the founder of the Richmond-based firms of Mortgage Investment Corporation and Alfred L. Blake and Sons. Alfred L. Blake, Jr., was instrumental in creating the Chair which provides a new dimension to the program in Real Estate and Urban Land Development at the University.

Norborne F. Muir Chair of Orthodontics. Established in 1974, this Chair honors Dr. Norborne F. Muir who in his will generously provided a bequest to the MCV Foundation to establish a Chair of Orthodontics in the School of Dentistry. Dr. Muir, who died January 31, 1974, graduated from the School of Dentistry of the Medical College of Virginia in 1918 and practiced dentistry all of his professional life in Roanoke, Virginia.

ACADEMIC COSTUME

Academic costume worn today at American college exercises goes back in its essential features to the Middle Ages. The oldest universities of northern Europe, such as Paris and Oxford, grew out of church schools, and both faculty and students were regarded in the Middle Ages as a part of the clergy. They wore clerical costumes, largely borrowed from the monastic dress of that day not just on special occasions, but as their regular costume.

The head covering of the academic costume developed from the skull cap worn by the clergy in cold weather to protect their tonsured heads. In the universities, this skull cap acquired a point on top, which gradually evolved into a tassel. The bonnet with tassel is still worn by degree holders of European universities. In America, it has been replaced by the familiar mortar board, which still retains the mediaeval tassel.

The hood (the mediaeval *caputium*) was originally a head covering worn over the head in bad weather; otherwise dropped on the shoulders as the monk's cowl. At first it was worn by faculty and students alike, but in the early sixteenth century it was restricted to graduates, thus it became the mark of a degree holder. Today, each college has its distinctive hood lining by which its graduates may be recognized in academic processions.

The gown worn today is the mediaeval *roba* and seems to have been borrowed from the habit of the Benedictine monks. In the Middle Ages, undergraduates, bachelors, and masters could be distinguished by the simplicity or elaborateness of their gowns. The doctor's gown was often furred—this survives today in the ornamentation found on the doctoral gowns. Usually the gown is black, but some colleges have colored gowns.

The wide velvet borders extending down the front of the doctoral gown, the velvet bars on the sleeves, and the borders of most hoods are colored according to the scholarly field of the wearer. Some of these are:

<i>Arts, Letters, and the Humanities</i>	<i>White</i>
<i>Business</i>	<i>Drab</i>
<i>Dentistry</i>	<i>Lilac</i>
<i>Education</i>	<i>Light Blue</i>
<i>Fine Arts, Architecture</i>	<i>Brown</i>
<i>Laws</i>	<i>Purple</i>
<i>Library Science</i>	<i>Lemon</i>
<i>Medicine</i>	<i>Green</i>
<i>Music</i>	<i>Pink</i>
<i>Nursing</i>	<i>Apricot</i>
<i>Pharmacy</i>	<i>Olive Green</i>
<i>Philosophy</i>	<i>Dark Blue</i>
<i>Public Health</i>	<i>Salmon</i>
<i>Science</i>	<i>Golden Yellow</i>
<i>Social Service</i>	<i>Citron</i>
<i>Theology</i>	<i>Scarlet</i>

THE UNIVERSITY

Virginia Commonwealth University was created by act of the General Assembly of Virginia on July 1, 1968, through the merging of the Medical College of Virginia and Richmond Professional Institute. The university takes its founding date from the Medical College of Virginia which was established in 1838.

Today the institution exerts a major influence in its region in the fields of education, research, health care, and community service. Virginia Commonwealth University is composed of the Medical College of Virginia Campus in the downtown business district and the Academic Campus in a nearby residential district. The university is authorized to maintain 1,058 beds in five patient care facilities.

Virginia Commonwealth University enrolls over 19,000 students in the Schools of Allied Health Professions, The Arts, Arts and Sciences, Basic Sciences, Business, Community Services, Dentistry, Education, Medicine, Nursing, Pharmacy, Social Work, and Graduate School. In addition, there are hospital-based certificate programs available in blood banking, EEG technology, cyto-technology, and dietetic internship.

The university offers undergraduate, graduate, and first professional degree programs; 16 programs award the doctoral degree. Supporting the instructional programs are the James Branch Cabell Library on the Academic Campus and the Tompkins-McCaw Library on the Medical College of Virginia Campus. The library collection exceeds 456,000 volumes and is supplemented by many special collections in the arts, sciences, humanities, and biomedical areas.

The university's 2,000 full and part-time faculty have distinguished themselves both in teaching and research, demonstrated by Virginia Commonwealth University's ranking among the nation's top 100 institutions in research activities. The faculty is sensitive to the need for constant curriculum revision to meet professional and educational requirements in a world of change. Accordingly, more than 30 new degree programs have been initiated in the past five years.

Because of its location in a large urban area of Virginia, the university operates highly developed day, evening, and summer programs.
